

At page 10, line 14 after the sentence which ends "the rubbing manner." insert the following sentence: ~~--A preferred method includes exposing the first or second alignment layer to ultraviolet light only once--~~; and after "As a result" delete "." and insert --,--.

IN THE CLAIMS:

Please cancel claims 2 and 5 without prejudice or disclaimer, amend claims 1, 13, 21, 24 and 29, and add claims 37-39 as follows:

- Sub  
C!
1. (Amended) A reflective-type liquid crystal device comprising:  
first and second substrates;  
a reflective electrode formed over the first substrate;  
a liquid crystal layer between the first and second substrates; [and]  
at least one uniaxial optical compensation film over the second substrate;  
a first alignment layer over the first substrate; and  
a second alignment layer over the second substrate.

Claim 13, line 1, change "8" to --12--.

Claim 21, line 1, change "claim" to --claim--; and change "wherein said forming" to --wherein said forming--.

Claim 24, line 1, change "claim" to --claim--; and change "wherein said providing" to --wherein said providing--.

29. (Amended) The method for manufacturing reflective-type liquid crystal display device, comprising:

- providing first and second substrates;
- providing a liquid crystal layer between the first and second substrates;
- providing at least one uniaxial optical compensation film over the second substrate;
- forming a first alignment layer having a plurality of alignment directions over the first substrate; and
- forming a second alignment layer over the second substrate.

Please add new claims 37-39 as follows:

37. The device of claim 8, further comprising a reflective electrode formed over the first substrate

38. The device of claim 8, wherein at least two of said plurality of first alignment directions of the first alignment layer are substantially perpendicular to one another.
